Experience

1. NAVRANG ENGINEERING

PRODUCTION ENGINEER

AUGUST 2018 - APRIL 2022

- Designed and developed electrical control panels for industrial and commercial applications.
- Led the assembly, wiring, and testing of power distribution panels and motor control centers (MCCs).
- Managed quality control processes, troubleshooting faults, and resolving production issues.
- Supervised a team of technicians to ensure timely and accurate production.

2. NEXUS AUTOMECH PVT LTD

APPLICATION ENGINEER

JUNE 2022 - APRIL 2025

- Designed and programmed PLC (Micro870, Allen-Bradley, Siemens) for multiple applications.
- Integrated HMI (Allen-Bradley, Exor, Delta, etc.) systems for monitoring and control of industrial operations.
- Developed automation solutions to enhance process efficiency and reduce manual intervention.
- Provided on-site and remote service support to customers for automation system troubleshooting.
- Provided technical training and support to operators, maintenance teams, and clients.

Education

K.D.POLYTECHNIC,PATAN
ELECTRICAL ENGINEERING

2015-2018

I Have completed my diploma in electrical engineering in k.d.polytechnic,patan with 7.92 CGPA.

Skills & Expertise

- Electrical panel design and wiring
- PLC programming (Allen-Bradley, Siemens, Schneider)
- HMI development
- Industrial automation and process control
- Circuit analysis and troubleshooting
- Electrical safety and compliance
- Communication protocols (Modbus, Ethernet/IP)
- Service support
- Customer training and system maintenance
- Team leadership and project coordination

Personal info.

Name :- Prajapati NavneetKumar Amruthbai

DOB. :- 9 October 1997

Gender :- Male

Languages :- Gujarati, Hindi, English.
